

Finally, a sleep apnea solution that doesn't suck.

Our Promise

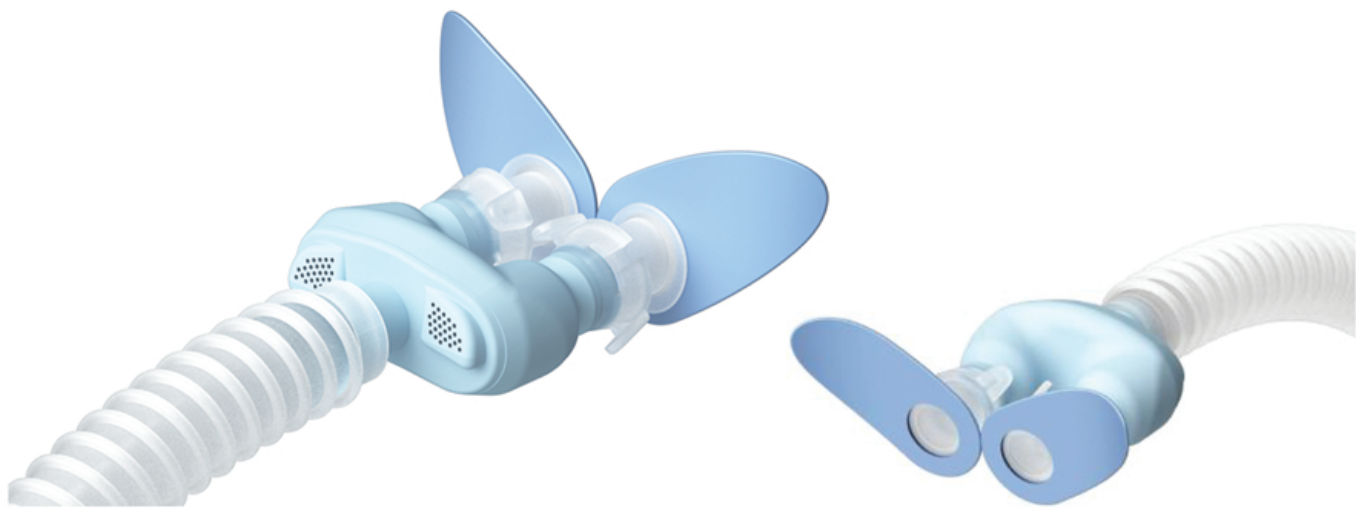

No Lines

No Leaks

No Pain

Introducing the best **BLEEPING** CPAP device on the planet.

The DreamPort™ Sleep Solution from Bleep is the first-ever maskless solution that actually works.

Suffering from Sleep Apnea is bad enough, but when you consider the discomfort of current CPAP solutions, it's no surprise that more than 50% of patients quit their device within the first year. In fact, we were some of those same people, so we decided to do something about it.

The DreamPort™ Sleep solution from Bleep CPAP is headgear free, lightweight, flexible and easy to use. Our patented solution uses specially designed adhesive strips to hold the DreamPorts™ in place - all through the night. But unlike traditional CPAP solutions, these strips leave no marks on your face. Application takes just 10 seconds and the lightweight design allows you to sleep on your back, side or stomach comfortably.

We have already submitted paperwork to the FDA and expect approval soon. Contribute now and become one of the first to get a good night's sleep with Bleep.

Direct Home Medical will be a strategic partner in delivering this unique product to the market.
