

The World's Very First Soft Cloth Pediatric PAP Mask.

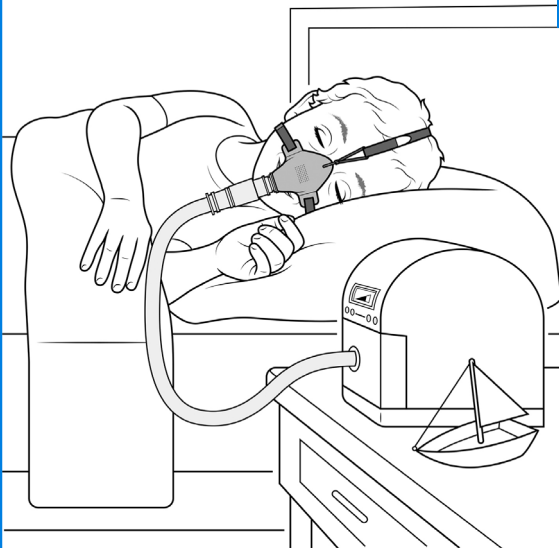

*Same proven cloth technology enhanced to
accommodate children 2 through 7 years of age.*

The launch of the SleepWeaver Advance Pediatric Soft Cloth PAP Mask marks the development of a revolutionary interface for Continuous Positive Airway Pressure (CPAP) used in pediatric patients. This new configuration extends the range of SleepWeaver products to include pediatric users with delicate facial features.

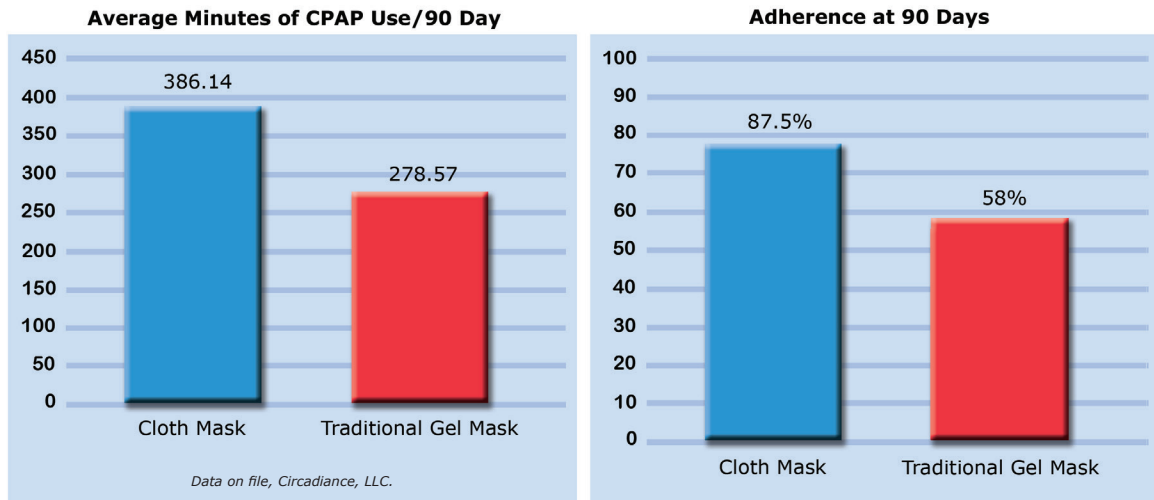

- Simple to use, easy to clean
- Seals quickly and easily
- All new 5 point adjustable headgear
- Only soft cloth touches the face
- Ideal for sensitive skin
- Wicks away moisture to let skin breathe

Young patients can now rest easy with the comfort of a soft cloth mask that delivers a great seal to support effective PAP therapy.

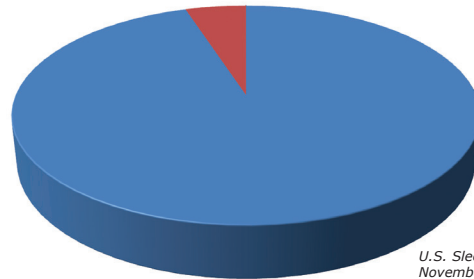

Give your pediatric PAP patients the opportunity to enjoy the comfort and convenience of soft cloth mask technology just like thousands of adults do...

...In the adult study above, comparing SleepWeaver soft cloth PAP masks to a leading hard plastic / silicone mask at 90 Days, SleepWeaver outperformed the traditional mask in both minutes of use per day and adherence.

95% of adults were satisfied to extremely satisfied with their choice of a SleepWeaver mask.

U.S. SleepWeaver Product Registration Survey, November 2015 - April 2016. Data on File.
